

Rolling Hills STEM Club Fall 2018

Students in 3rd, 4th, & 5th Grades are invited to participate.

In a world that's becoming increasingly complex, where success is driven not only by what you know, but by what you can do with what you know, it's more important than ever for our youth to be equipped with the knowledge and skills to solve tough problems, gather and evaluate evidence, and make sense of information. These are the types of skills that students learn by studying science, technology, engineering, and math – subjects collectively known as STEM. (quoted from <https://www.ed.gov/stem>)

Mrs. Lopez, Rolling Hill's own Computers and World Studies teacher, will be facilitating this afterschool club. STEM Club activities will include working with Kano computers, Ozobot Evos, Code.org, STEM activities, and building with blocks.

The Fall session of RHPCS STEM Club will be held from 2:40 – 3:30 p.m. on Wednesdays, from September 12 – November 14, 2018. At the end of school day, STEM Club participants will gather at the gate into Optimist Park to come into the building together with Mrs. Lopez. Sending your child with a non-messy, healthy, simple snack is encouraged. Please be prompt in picking up students at 3:30 p.m., they will be at the front of the building to await rides.

RHPCS Students in Grades 3, 4 or 5, are invited and encouraged to sign up for STEM Club. There is no charge for students to participate in STEM Club, however in order to best plan for space and equipment needed, we require that students be pre-registered to participate. As STEM club activities are hands-on, we must limit the number of club participants. Planned activities will be a repeat of last year, so priority will be given to new club participants on a 1st sign up, first enrolled basis. If interest exceeds availability, we will establish a waiting list of students that will be given priority when the Spring 2019 session is announced. Please complete the interest form below and return it to the school office.

I would like my child/children to participate in the **2018-2019 RHPCS STEM Club.**
